Subject: Nov 1 call

Hi Bryan and Jeff,

I'll leave it up to you on whether you'd like to do a call. We were going to discuss the EAL language, and I know there's a briefing in our EPA HQ counsel this afternoon on 316(b) so can give you an update on that. I'm also fine if you'd like to hold off until later as I'm sure you're all very busy, and there seems to be new information every day. FYI that I'm still working on these permits to get them ready for public comment once we hear back from EPA HQ. We are also continuing to work with Ecology and Colville Tribes on the timing for their draft 401 certification of the permits.

Subject: Re: [EXTERNAL] 316(b) comments

Thank you for the update, Jenny. Do you still want to do our call on Nov 1?

Also, we will hold off on responding to your Oct 18th e-mail.

Bryan

Hi Ken, Don, Bryan, and Jeff,

Just an FYI that as you know, EPA has been looking into whether 316(b) and the 2014 implementing regulations apply to dams. Our EPA HQ office has asked us to hold off on any communications on 316(b) until this is resolved. I'll let you know if there are any significant changes. In the meanwhile, if you could hold off on any questions, comments, or responses in writing on 316(b), I'd appreciate it. Let me know if you have any questions.

Thanks,

Jenny Wu
